Introduction

Indian Premiere League (IPL) is a professional Twenty20 cricket league in India contested during March or April and May of every year by different teams representing different cities in India.

Procedure

- Web Scrape the Indian Premier League points tables from Cricbuzz website to collect the data, I used BeautifulSoup.
- Collected the points table from 2011 to 2019 years and calculated the won, lost and tie percentage.
- Performed Data cleaning to get effective results.
- Analyze, Visualize & conclude the solution using collected data.

Result

Conclusion

- 'Chennai Super Kings' is having more winning percentage of (62.75%) followed by 'Mumbai Indians' having (59.23%).
- 'Pune Warriors' is the most losing team in the IPL history with (71.74%) followed by 'Deccan Chargers' having (63.33%).
